Clinical Dental Assisting Procedures — DENT 154  
Certified Dental Assisting Program

Course Outline

GENERAL COURSE DESCRIPTION:

Section 1 of Clinical Dental Assisting Procedures concentrates on the practical objectives you have learned about in DENT 100 through DENT 142 as well as the course learning outcomes. Your time is spent in demonstration, practice and evaluation of these skills under the direct supervision of a licensed instructor.

Prerequisite requirements for Section 2: completion of Section 1 of this course is required for Work Experience 1 (DENT PRAC 1).

Section 2 concentrates on the practical elements of Certified Dental Assisting (CDA) that you have learned about in DENT 141 and DENT 143. This is your opportunity to apply the theory and knowledge you gained at chairside into actual practice as the operator under the direct supervision of a licensed instructor.

You need to master these skills in order to be eligible to become a CDA. Completion of Section 2 of this course is required for Work Experience 2 (DENT PRAC 2).

Program Information: This course is required for successful completion of the Certified Dental Assisting program.

Delivery: This course is delivered face-to-face.
